Building Resilient Landscapes

Post-Fire Restoration on the Mendocino National Forest

June 6th | 9 am – 2 pm **lunch included*

Granzella's Banquet Hall

457 7th St, Williams, CA 95987

Register at: <https://tinyurl.com/s23kfjrf>

In recent years, wildfires have burned nearly a million acres on the Mendocino National Forest. The impacts of those fires and climate change have affected local communities in many ways.

Addressing the wildfire crisis is a top priority for the USDA Forest Service. In partnership with Firescape Mendocino and the USDA California Climate Hub, the Forest Service is pleased to offer a workshop to develop a shared vision for the Mendocino National Forest post-fire restoration strategy.

Community members and Forest Service partners will have an opportunity to share how recent wildfires have impacted their values for the forest, and consider how to prioritize investments in its recovery.

We look forward to seeing you in June!

Funding for this project is provided by the California Department of Forestry and Fire Protection as part of the California Climate Investments (CCI) Program. The Tehama-Glenn Fire Safe Council Fire Prevention Education Program is part of California Climate Investments, a statewide program that puts billions of Cap-and-Trade Dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment-particularly in disadvantaged communities. The Cap-and-Trade program also creates a financial incentive for industries to invest in clean technologies and develop innovative ways to reduce pollution. California Climate Investments projects include affordable housing, renewable energy, public transportation, zero-emission vehicles, environmental restoration, more sustainable agriculture, recycling, and much more. At least 35 percent of these investments are located within and benefiting residents of disadvantaged communities, low-income communities, and low-income households across California. For more CCI information visit: www.caclimateinvestments.ca.gov.
