

# Inquiry Form: Community Hazard Tree Removal & Vegetation Treatments

Mineral & Stringtown

In partnership with the Firewise USA®- Mineral chapter, the [Resource Conservation District of Tehama County](#) (RCDTC) will assist the Mineral community prepare for wildfire by addressing local hazard trees and vegetation. In working together with landowners, we all can help protect Mineral and Stringtown properties from wildfire and make the community more fire safe. There is no-cost to landowners for this TinderSmart Tehama grant funded service.

**I am interested in receiving this free service and would like to know more about it. I understand that removing targeted vegetation will reduce ground fuels as well as ground-to-crown ladder fuels to lessen the community's wildfire severity should such an event occur. It also improves ingress and egress of emergency personnel as well as egress for residents in the event of wildfire.**

Please complete the following form and submit to a Firewise USA® - Mineral Chapter leader in your community:

Mineral Central Business District: Jim Richardson (530) 200-1225 or RB Wadlington (530) 595-3330

Firewise USA® - Mineral Chapter
